## PROFILE

BCA graduate with a strong foundation in MERN Stack Development and Web Technologies. Skilled in MongoDB, Express.js, React.js, Node.js, JavaScript, Git, and GitHub. Experienced in developing responsive and user-friendly web applications with RESTful APIs, database integration, authentication, and full-stack functionality. Passionate about building scalable web solutions, learning emerging technologies, and contributing effectively to development teams.

## SKILLS

### Frontend

HTML, CSS, JavaScript, React.js, Next.js

### Backend

Node.js, Python, Express.js, REST APIs

### Database

MongoDB, MySQL

### Cloud & DevOps

AWS Fundamentals, Cloud Computing Concepts, CI/CD Basics

### Tools

Git, GitHub, VS Code, Linux

## INTERNSHIP EXPERIENCE

### Xenett - Full Stack Developer Intern

May 2026 – Present

- Contributed to the development and maintenance of modern web applications using JavaScript and Next.js.
- Built responsive and user-friendly interfaces with a focus on performance and usability.
- Worked with APIs, databases, and frontend-backend integration.
- Collaborated with the development team using Git and GitHub for version control.
- Participated in debugging, testing, and implementing new application features.
- Gained hands-on experience in real-world software development workflows and best practices.

## PROJECTS

### 1. Aromique – Perfume E-Commerce Website

- Developed a full-stack perfume e-commerce website using MongoDB, Express.js, React.js, and Node.js.
- Built responsive product listing, product details, shopping cart, checkout, and order management features.
- Implemented secure JWT authentication, bcrypt password hashing, OTP email verification, and role-based admin authorization.
- Integrated Razorpay for online payments with payment signature verification. Implemented product image uploads using Multer and Cloudinary.
- Developed RESTful APIs for authentication, products, cart, orders, payments, and admin management.
- Built an admin dashboard for product and order management with order analytics. Used Redux Toolkit, React Context API, localStorage, and React Router for state management, authentication, navigation, and cart persistence.
- Integrated Nodemailer with Gmail SMTP for OTP and email notifications.

**Technologies:** MongoDB, Express.js, React.js, Node.js, JavaScript, Redux Toolkit, JWT, REST API, Cloudinary, Razorpay, Nodemailer, Git, GitHub

**2. JD Graphics – Graphic Design & Branding Agency Website**

- Developed a responsive graphic design and branding agency website using Next.js, TypeScript, React, and Tailwind CSS.
- Built pages for branding services, printing and digital solutions, portfolio, pricing, blog, testimonials, about, careers, FAQ, privacy, and terms.
- Implemented interactive UI components and smooth animations using Framer Motion.
- Developed a project inquiry contact form using React Hook Form with email integration through EmailJS/Nodemailer.
- Created server-side API routes using Node.js for handling backend functionality.
- Optimized the website for responsive design, usability, and performance across desktop and mobile devices.

**Technologies:** Next.js, TypeScript, TSX, React, Tailwind CSS, Framer Motion, React Hook Form, Node.js, EmailJS, Nodemailer, Git, GitHub

**3. AI Mock Interview Tracker**

- Developed an AI-powered mock interview platform using Next.js and JavaScript.
- Enabled users to practice technical and HR interviews.
- Implemented interview tracking and performance analysis features.
- Designed a responsive and user-friendly interface.

**Technologies:** Next.js, JavaScript, HTML, CSS, Python, MySQL

**4. Ojas Design Studio**

- Developed a responsive business website with a modern user interface.
- Created reusable web components using HTML, CSS, and JavaScript.
- Optimized website performance and mobile responsiveness.

**Technologies:** HTML, CSS, JavaScript, Git, GitHub
